PATH was founded on the Westside of Los Angeles by a group of concerned community members looking to support their neighbors on the streets. What started as community members providing food and clothing to those living in the streets, has grown into one of the largest homeless service providers in California. In Los Angeles we provide a variety of services for our neighbors experiencing homelessness that include employment, outreach, homelessness prevention, housing navigation, interim housing, rapid rehousing, and permanent supportive housing.

**PATH's Mission**
PATH's mission is to end homelessness for individuals, families, and communities. We do this by building affordable housing and providing supportive services throughout California.

**Path's Story**

Coordinated Street Outreach
Outreach staff engage and build trusting relationships with unsheltered individuals and help enroll them into programs that seek to stabilize their wellness and housing. Our staff conduct assessments, identify needs and challenges, and make referrals to services that will help people move off the streets and into their own homes. Our team uses a housing-focused and person-centered approach through persistent and frequent engagement to assist individuals who are unable to access homeless services on their own. Outreach teams are geographically oriented so that we can learn who is experiencing homelessness in each of our coverage areas through a combination of assessment, observation, and communication with businesses and community groups.

Interim Housing
PATH Los Angeles has 875 interim beds where individuals and families can find respite from the streets while working towards securing permanent homes and achieving self-sufficiency. In 2023, we opened a 143-bed interim housing site, A Bridge Home Highland Gardens, in collaboration with Council District 4. PATH is proud to partner with Los Angeles Mayor Karen Bass on Inside Safe, a program that brings outreach services to encampments, transitioning people indoors to hotels and motels. PATH’s Inside Safe sites began by serving around 100 individuals, and we are excited to open even more sites in fiscal year 2024.

KEY PROGRAMS CONT’D

Family Services Family services provides a single, centralized point of access for homeless families in need of services; temporary and permanent housing placement; and linkages with employment, physical and mental health, childcare, and other community-based services.

Veteran Services PATH Los Angeles’ Supportive Services for Veteran Families (SSVF) program works to connect Veterans experiencing homelessness to critical services such as case management, mental health support, employment opportunities, and housing navigation to end Veteran homelessness. In collaboration with the Department of Veterans Affairs (VA), we provide safe interim housing for unsheltered Veterans to have a safe space to stay while developing housing plans. Our comprehensive Veteran services include Veteran interim housing and the Housing and Urban Development-VA Supportive Housing (HUD-VASH) program. HUD-VASH extends support to Veterans’ pets, covering the cost of vaccinations and other necessary treatments.

LA County Department of Health Services and Metro Transit In partnership with the LA County Metropolitan Transportation Authority and LA County Department of Health Services, PATH began providing services on LA’s public transportation in 2017. This program engages our unhoused neighbors using public transportation as shelter and connects them with services to move into permanent housing or reunify them with family members. Our ultimate goal of this program is to end homelessness in Los Angeles County public transportation systems.

LeaseUp is an initiative of PATH created to increase access to LA County’s rental market by collaborating with property owners and managers to help end homelessness in Los Angeles. LeaseUp addresses the concerns of property owners and managers with a dedicated team of professionals to navigate the process. In the last five years, PATH has helped nearly 8,500 of our unhoused neighbors move into permanent homes through the LeaseUp program.

Time-Limited Subsidy (TLS) Our TLS staff help individuals and families quickly exit homelessness and move into their own homes through housing placement assistance, security deposit, short-term rental assistance, and stabilizing case management.

Housing Search & Navigation PATH supports our participants throughout the process of securing permanent housing through our Housing Navigation Program. Through short-term rental assistance, housing matches, move-in support, and comprehensive case management services, PATH is helping move people off the street and directly into permanent homes.

Employment Services Employment services provide training, resources, case management, job retention support, and an alumni network to help Veterans find and keep jobs. Services can include help obtaining certifications, required attire and tools, and transit assistance for work. Employment specialists work directly with employers to help residents gain employment quickly.

Supportive Housing & Services PATH Los Angeles provides 834 units of permanent supportive housing to individuals, families, and Veterans experiencing homelessness with on-site supportive services.
